 Since 1965, Voss Signs has produced a broad range of stock and custom signs using a wide variety of materials and processes. Our signs are created in a 60,000-square-foot facility in upstate New York using state-of-the-art technology and equipment.

Although Voss Signs stocks over 250,000 signs at any given time, custom signs are our specialty. Our graphic designers are able to create dynamic signs to your specifications. Our experienced sales department can assist you with your custom needs and provide you with sample designs demonstrating our capabilities and materials. Voss Signs is committed to providing the outdoor sign market with unsurpassed quality, pricing and service. We are proud to support many national, regional and state organizations through memberships. We appreciate your continued support and are happy to bring you our latest catalog featuring many new items.

PLASTIC High density polyethylene comes in gauges* from .024 to .125. Maximum UV inhibitors give our signs long term outdoor durability and colorfastness.

SINTR A (P B OARD) Lightweight, expanded polyvinyl chloride has a closed-cell structure with a low gloss, satin finished surface. Ideal for the application of our digitally printed vinyl material for highly rigid and impact resistant signage and POP displays.

ALUMINUM Our .012 gauge* aluminum is available in infinite background colors and our .020 to .080 gauges* are available with white baked enamel finish. Special colors upon request.

SELF-ADHESIVE VINYL Available in engineer grade reflective sheeting, non-reflective sheeting, permanent and removable bumper sticker material, inside-mount window decals and perforated vinyl.

CORRUGATED PLASTIC White, 4mm thick material.

MAGNETIC .020 and .030 gauges* available with a white background and your choice of print color(s).

BANNERS A complete selection of banner material is available. Contact us for further details.

### PRICING

We try our very best to maintain our prices but all prices are subject to change if deemed necessary.

Footnote:

* Gauge is a term used to reference the decimal equivalent of an inch. For example: .125 equals 1/8".
Reflective Signs  White legend with brown printed background. Available with 3M® reflective sheeting or non-reflective background.

4” x 4” Reflective Decals

**INTERPRETIVE**

Our reflective decals are printed on white reflective backgrounds, using Engineer Grade Reflective Sheeting.

**PROHIBITIVE** (with black & red print)

66” Delineator Posts

66” tall and 4” wide delineator posts are manufactured out of recycled and recyclable Engineering Thermoplastic Polymers, impervious to rot or rust. They will not splinter like fiber glass. Posts will bend on contact and spring back to original shape. The color pigments are blended throughout to resist discoloration due to UV exposure and to provide a long outdoor life. Decals can be applied directly to post, and signs can be easily attached with bolts or fasteners. Other lengths and colors available. Call for more information.

6” x 6” Recreational Signs

8” x 8” Recreational Signs

12” x 12” Recreational Signs

Reflective Signs  White legend with brown printed background. Available with 3M® reflective sheeting or non-reflective background.
### Reflective Arrows

- **Reflective Arrows** are manufactured out of recycled and recyclable engineering thermo-plastic polymers, impervious to rot or rust. They will not splinter like fiber glass, become brittle in the cold, or soften in the heat. Posts will bend on contact and spring back to original shape. The splinter like fiber glass, become brittle in the cold, or soften in the heat. Posts will bend on contact and spring back to original shape.

- **Delineator Posts** are manufactured out of recycled and recyclable engineering thermo-plastic polymers, impervious to rot or rust. They will not splinter like fiber glass, become brittle in the cold, or soften in the heat. Posts will bend on contact and spring back to original shape. The splinter like fiber glass, become brittle in the cold, or soften in the heat. Posts will bend on contact and spring back to original shape.

3-Dimensional Sandblasted Signs
Voss Signs® custom 3-dimensional sandblasted signs can be made in many shapes, designs and color combinations. Available in single sided or double-sided sign options.

**Finishes:** Smooth Surface, Simulated Wood Grain, Metallic Painting

**Thicknesses:** 1/2", 3/4", 1", 1 1/2" and 2".

The Advantages of HDU (HIGH DENSITY URETHANE)
HDU is an eco-friendly material that does not absorb moisture. This means that high humidity, rain, snow and ice are repelled so your sign won’t warp or crack, and the paint lasts longer and stays brighter.

Please call for pricing and more information.

**T.E.B. Temporary Signage**
11” x 14” signs with a 3-month life span, that are an environmentally friendly, temporary solution. Uses: interim detours, short-term notices, seasonal regulation, destination signs, proximate wayfinding signage, provisional projects, impermanent trail notices, and more.

Call our sales associates for more information.
